

Reshaping expectations of care

We develop treatments that provide new options for patients and their families. Patients inspire us to pioneer therapies in new scientific spaces that deliver meaningful advances for the people who need them the most.

We are a global pharmaceutical company, working at the forefront of healthcare change to turn innovative science into value for patients.

Focused on unmet patient needs

We're advancing cutting-edge research in areas of high unmet need so we can bring significant, ground-breaking treatments – including highly specialised immuno-oncology, genetic regulation, blindness and regeneration, mitochondria and targeted protein degradation – to patients and the people who care for them.

We are a global pharmaceutical company, working at the forefront of healthcare change to turn innovative science into value for patients.

Empowered to make an impact

At Astellas, our success comes down to the passion of our people who are pursuing ideas in new scientific spaces – including innovative medicines in highly specialised immuno-oncology, genetic regulation, blindness and regeneration, mitochondria and targeted protein degradation – that transform healthcare and improve patients' lives.

We are a global pharmaceutical company, working at the forefront of healthcare change to turn innovative science into value for patients.
