

OPEN STAGE 17

Saturday 12/9/2026 στις 14:00 – 15:00

Research Activities at the American College of Greece

This talk will provide a brief overview of the research ecosystem and related activities, as they have developed to date, at the American College of Greece. It will present the teams, centers, laboratories, and infrastructure involved, as well as representative samples of the research being carried out, with an emphasis on collaborative, externally funded research projects and their outcomes.

Speaker:

Dr. Konstantinos Papadias

Associate Vice President for Research & Innovation

American College of Greece
