

OPEN STAGE 17

Saturday 05/9/2026 στις 17:00 – 17:30

Research Activities at The American College of Greece

This presentation will briefly describe the research ecosystem and relevant initiatives of The American College of Greece as they have evolved to date. It will introduce the participating groups, centers, laboratories, and infrastructure, alongside representative samples of ongoing research, focusing on collaborative, externally funded research projects and their outcomes.

Speakers: Dr. K. Papadias (Associate Vice President for Research, The American College of Greece)
