

OPEN STAGE 17

Sunday 6/9/2026, 15:30–16:00

Are AI SKILLS more important than a degree??

Is a university degree enough in the age of Artificial Intelligence, or are AI skills now becoming a decisive factor in the job market? Industry executives and career consultants analyze the new landscape and reveal what employers are looking for in candidates today. Learn how the combination of academic knowledge and digital skills is redefining the value of a degree, and how you can stay competitive in a rapidly changing world of work.

Highlights:

- The new candidate profile employers are looking for
- AI Skills vs. Traditional Degree
- Skills that stand out and strengthen your resume

Speakers: I. Michailidis (Financial Director, AIS), A. Valozos (Business Development Manager, AIS), S. Panagiotidou (PhD HRM, Career Development Consultant), C. Taousanis (PhD, Scientific Director, EMPLOY EDU)
